Consultation for: Implant Perio Wisdom Teeth Extraction
 Other _____

Comments _____

- Radiographs with patient
- Patient has a restoration plan
- Please call before patient is seen for consultation
- No Current Radiography
- Radiographs will be mailed
- Radiographs will be emailed

Greetings from Implant and Periodontics Solutions

I'm Dr. Owen Trinh.

I'm a periodontist. I completed certified specialty training in periodontics and prosthodontics at the University of Minnesota. Prior to moving to Arizona, I served in the U.S. Air Force as a faculty in the Advanced Education in General Dentistry residency at Nellis Air Force Base in Las Vegas, and I also worked in private practice.

My training and experience enable me to provide you with comprehensive oral and periodontal surgery and advanced implant treatments, utilizing modern digital dental technology to aid with diagnosis and the delivery of care. I help patients rebuild jawbone and gum to support natural teeth and dental implants. In addition, I help patients reconstruct their dentition using the **All-on-4 Same-Day-Smile** concept, where multiple implants are placed and restored with an aesthetic and functional implant bridge. Regardless of the type of procedures, my team and I can provide patients with either oral, intravenous (IV) or general anesthesia sedation to help patients feel at ease and comfortable during procedures.

My team and I look forward to serving you!

- **Periodontal and Oral Surgery**
- **Wisdom teeth extraction**
- **Implant surgery**
- **All-on-4 surgery (same-day smile)**
- **Bone & gum grafting on natural teeth**
- **Sinus graft**
- **Bone & gum grafting to save ailing implants**
- **Sedation**
- **Periodontal cleaning**
- **Oral cancer detection and biopsy**
